

Small Actions, big change: Helping the Enviroment at School

Our Planet needs our help! At school, we can do small things every day to protect the enviroment. Even if we dont have recycling bins, we can make a difference. Here are some simple steps to take care of our shool and help the plane

First, try to use- less plastic every day.

NO

yes

Next, carry a reusable water bottle instead of a plastic one.

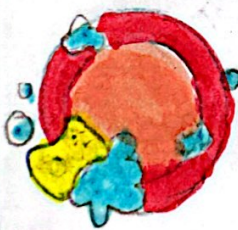

Then, also bring food containers from home and take them back to wash and reuse them.

After that, always reuse the paper for notes or drawings before throwing it away.

before throwing them into trash later.

before throwing them in the trash. Later, a "pick up day" for the shield and pond in the box

Also encourage your friends to use reusable items like bottles, bags, and containers.

Finally, join or create an eco-club to help with school environmental projects.
